Brief Explanation of Disc Golf

Disc golf is a flying disc game in which individual players throw a flying disc at a target. According to the Professional Disc Golf Association, "The object of the game is to traverse a course from beginning to end in the fewest number of throws of the disc." The number of disc golf courses has more than doubled in 8 years from 2000 to 2008 with over 3,000 courses in the U.S. The game is played in about 40 countries around the world.
